

# UCP Compliance Audit Report

Universal Content Protocol Technical Assessment

## REVIEW DATE

03 February 2026 at 02:58:28 UTC

## SITE REVIEWED

<https://example.com>

## EXECUTIVE SUMMARY

0/100

**NOT READY**

× NON-COMPLIANT

**UCP Readiness Assessment:** This website does not meet the minimum requirements for UCP deployment. Significant technical implementation is needed across multiple components.

## Detailed Component Analysis

### ✖ Robots.txt UCP directive

0/20

No UCP directive in robots.txt

**Assessment:** Presence of UCP references in robots.txt. Endpoint: <https://example.com/robots.txt>; Status: 404

**Weight in calculation:** 20%

### ⚡ RECOMMENDED ACTION

Add UCP directive to your robots.txt file at <https://example.com/robots.txt>

```
User-agent: *  
Allow: /.well-known/ucp  
  
# UCP Configuration  
UCP-Config: /.well-known/ucp
```

*This allows AI agents and crawlers to discover your UCP configuration endpoint.*

## ✖ UCP configuration file

0/50

UCP config missing or blocked (HTTP 404)

**Assessment:** Accessibility and format of /.well-known/ucp. Endpoint: <https://example.com/.well-known/ucp>; Status: 404

**Weight in calculation:** 50%

### ⚡ RECOMMENDED ACTION

Create UCP configuration file at <https://example.com/.well-known/ucp>

```
{  
  "version": "1.0",  
  "publisher": "example.com",  
  "contact": "admin@example.com",  
  "content_types": ["text", "html"],  
  "ai_training": "opt-out"  
}
```

*Ensure this file returns JSON with `Content-Type: application/json` header.*

## ✖ UCP HTTP headers

0/30

No UCP-related headers detected

**Assessment:** Presence of UCP-related headers in HTTP response. Endpoint: <https://example.com/>; Status: 200

**Weight in calculation:** 30%

### ⚡ RECOMMENDED ACTION

Add UCP-related HTTP headers to your homepage response:

```
UCP-Config: /.well-known/ucp
X-Robots-Tag: UCP-Enabled
```

Configure your web server (Apache, Nginx, Cloudflare) to send these headers with all page responses.

## Scoring Methodology

### Weighted Average Calculation

- **Robots.txt UCP Directive (20%):** Presence of UCP references in robots.txt
- **UCP Configuration File (50%):** Accessibility and format of /.well-known/ucp
- **HTTP Headers (30%):** Presence of UCP-related headers in HTTP response

**Compliance Thresholds:** Compliant ( $\geq 70$ ), Partial (50-69), Non-Compliant ( $< 50$ )

### PRIVACY & DATA PROTECTION NOTICE

**GDPR alignment:** This automated technical assessment is designed to follow data minimization and purpose limitation principles.

**No data storage:** The service is intended to run with zero data retention (in-memory processing only) and does not store site content or results after the PDF is generated.

**Automated processing:** The scan is fully automated and checks only publicly accessible endpoints (robots.txt, /.well-known/ucp, HTTP headers).

**Informational use:** This report is provided for informational purposes and should be complemented with your own validation.

**Cross-border note:** This assessment is executed from the Netherlands (EU) while reviewing websites hosted in other jurisdictions. The scan is limited to public technical endpoints and performed in a compliance-oriented manner.

**Reviewer location:** Netherlands (EU)
